

## Stainless Steel Surgical Tables

The Vet1 Surgery Tables were designed with input from veterinary surgeons in order to improve functionality.

Basic features are height adjustment, top inclination and top tilting. These features ensure the conditions for keeping the patients in the best location and position.

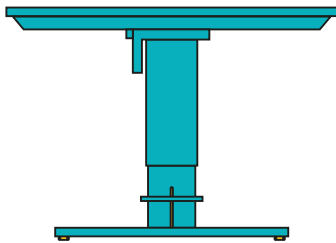

Our range of Surgery Tables include fixed structures as well as adjustable solutions, in height, position or both. There are options for Hydraulic manual and also Electric operation.

Tops are made entirely of AISI304 stainless steel, an excellent material given its resistance, durability and easily cleanable. It is also an inert material (does not react with any substance with which it contacts) and nontoxic.

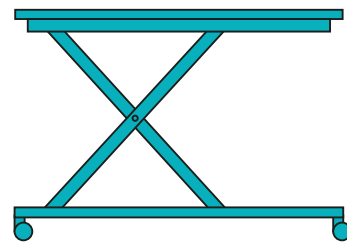

They are flat or V shaped, allowing for independent flap adjustment. The bases made of AISI304 stainless steel.

Vet1 has Surgery Tables with several configurations, from the basic to the most complete, suited to any need: height regulation (hydraulic or electric).

All Surgery Tables have a slight slope to channel fluid, preventing accumulation. There are accessories that further increase the functionality of the tables.

Hydraulic

Electric

Made in Europe

Image	Description Reference	Base	Operation	Top	Capacity	Regulation
	Flat Top Hydraulic Surgery Table 2.05.003.001	Stainless Single Column	Hydraulic Manual	Flat 130x60cm	<150kg	Inclination: 0-16° Height: 86-104cm
	V Top Hydraulic Surgery Table 2.05.003			V shaped 16° max. tilt 140x55cm	<150kg	Inclination: 0-16° Height: 86-104cm
	Flat Top Electric Surgery Table 2.05.001	Stainless Steel with wheels	Electric	Flat 130x60cm	<150kg	Height: 61-108cm

## Stainless Tables

The Vet1 range of tables are specifically designed to improve veterinary practice and adapted to several specific needs. Procedures such as consultation, ultrasound, ecocardio are some of those for which we have specific tables. Also we have available complementary tables as over and mayo.

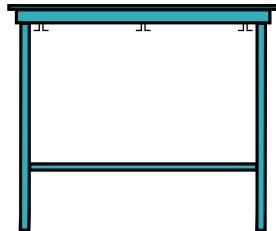

At Vet1 we want to ensure the durability and functionality of all our products. This is the reason why we make our Veterinary Tables with a robust construction and the best materials.

We believe low maintenance is a must, so every veterinary table requires little attention in order to maintain its great performance.

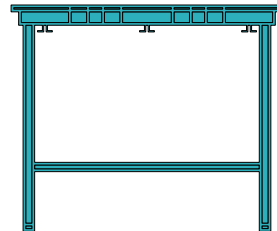

We have Veterinary Examination Tables with and without wheels, so mobility is assured. For space saving we have a wall mount stainless steel consultation table. Also Veterinary Exam Tables with height adjustment, hydraulic or electric.

Factory fitted drains available on request

	Cage bank 12041	2.03.002	AISI 304 Stainless Steel	3-4	High Security Latches + Radius Inner Corners + Raised Front Anti-spill lip + Optional Drains	4 Wheels (2 with brake)	121 × 72 × 152 cm
	Cage bank 18051	2.03.005		4-5		6 Wheels (2 with brake) + Nylon Dividing Plates	182 × 72 × 172 cm
	Cage bank 18052	2.03.006		3-5			182 × 72 × 172 cm
	Cage bank 18053	2.03.007		2-5			182 × 72 × 172 cm
	Cage bank 18093	2.03.030		6-9			182 × 72 × 232 cm

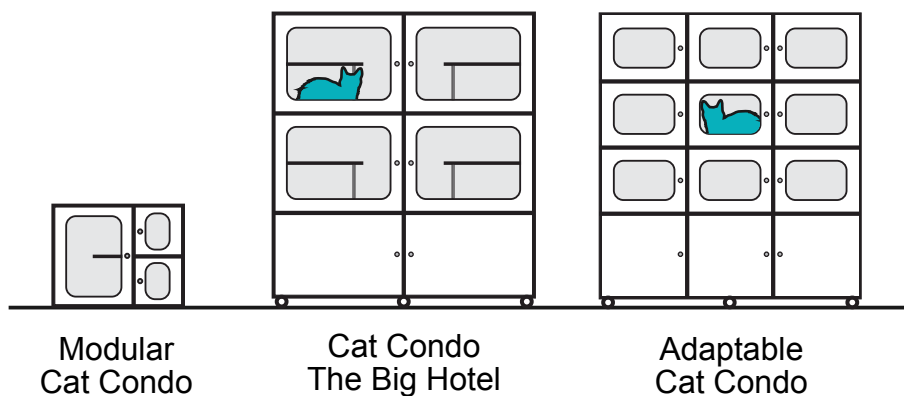

## Cat Condos

Our Cat Condos are a robust structure made of compact laminate covered with HPL.

So they are both waterproof and scratch-proof, needing very simple maintenance. Their simple and secure latch keeps the cats safe, preventing them from opening the door.

The doors are made with a large transparent acrylic window – cats love it!

Also included is an air gap between the door and the window, as a result an adequate ventilation is ensured, without compromising the safety of the animal.

**Custom sizes and configurations available on request**

Made in Europe

Image	Description	Reference	Materials	N° Cages	Features	Dimensions
	Modular Cat Condo	2.03.010	HPL + Acrylic Window Doors	3	3 Interconnecting Areas, Trans-lucid Acrylic Dividing Plates, Raised Platform, Security Latches and Transparent Acrylic Window Doors Designed for multiple combinations	80 × 46 × 62 cm
	Cat Condo The Big Hotel	2.03.027		4	2 Storage Areas with Doors + Raised Platform 6 Wheels + Security Latches + Transparent Acrylic Window Doors	160 × 46 × 174 cm
