Anaesthesia

Endo Tubes

Manufactured with strong tube walls to ensure the proper ventilation for all patients. A variety of sizes ensures a safe airway is maintained throughout the surgery.

- High-volume, low-pressure, barrel-shaped cuffs.
- Responsive pilot balloons.
- Finely heat-welded cuffs (cuffed versions).
- Bull-nose tips.
- Split-resistant radiopaque lines.
- Smooth Murphy eyes.
- Kink-resistant thermosensitive tubes.

Specialist Catheters

Millpledge Catheters

Tom Tiddle™ (Crystal-Clear) & (Long-Term)

Designed with advanced features and multiple size and end hole options, Tom Tiddle™ is available in both short and long-term use options in the treatment of FLUTD or flushing in cats. Each single-use catheter is packed sterile. Each Tom Tiddle™ catheter is covered with a sheath to maintain sterility before insertion. Each pack also includes a sachet of sterile Cath lube Vet-Lubigel™ to assist glide during insertion, minimising trauma, and maximising comfort for your patient.

Code	Product	Price	Qty

KittyCath™ Short Term atraumatic tip

Designed with advanced features with multiple sizes and a choice of open end or with 2 side holes. Kitty Cath™ Smooth 'n' Easy is made from the highest quality medical grade 100% PTFE (Polytetrafluoroethylene). Unlike alternative catheters which are PTFE coated plastics, KittyCath™ provides the most comfortable patient solution in the treatment of FLUTD or flushing in cats and general catheterisation. Each single use catheter is packed sterile in a clearly marked colour card box. Within the box a Millpack™ sterilisation pouch is used, providing ultimate pack safety and sterility whilst in storage. Each KittyCath™ Smooth 'n' Easy catheter is covered with a separate sheath to maintain sterility before insertion.

Jimmy Riddle™ Dog Urine Drainage Catheters

Available in a wide range of configurations to suit your patient. Straight Closed & shaped Tieman soft rounded ends provide the upmost comfort, whilst allowing ease of placement and advancement. Colour-coded Luer Lock applicators, soft semi-rigid clear plastic catheter material, presented sterile; provides a patent pathway, assists in the unblocking of the urethral pathway, drainage of the bladder or for taking urine samples for urinalysis and monitoring urine output. Jimmy Riddle™ is also suitable for flushing and administering radio opaque contrast material into the lower urinary tract of your patient. Presented Sterile with plastic sheath to maintain sterility during procedure. Each pack comes with a sachet of Vet-Lubigel™ sterile.

V1AB02409	Millpledge WRAPZ 10cm Chewy No No Big Bitters (12 pack) assorted	\$44.00	

These fun prints have a dual purpose. As well as looking great they have our secret 'Chewy NoNo' flavour imbued into the material. They may be bad tasting but they're safe and non-toxic. Wrapz Chewy NoNo™ deters biting, chewing, and licking of the bandage. This can help with a swifter recovery and ultimately, a happier patient.

**MILLPLEDGE

Eaze-Off™ temporarily denatures the tack / adhesive properties of the glue used on high tack fixation, support, and compression bandages, allowing easy and painless removal of the bandage or dressing and minimising trauma to the healing process and the animal. The tack of the glue is only temporarily suspended as Eaze-Off™ completely evaporates, leaving no residue or film barrier preventing the re-adhesion of the next dressing or new appliance to the animal.

Surgical Clippers

Lordson Professional Clipper & A5 Blades

The Lordson Professional 2 Speed on Battery Clipper is rugged and reliable. Its motor drives the cutting head directly, which gives the maximum power during clipping. Thanks to its 2 speeds, you will be able to work as well on a normal hair and dense or tangled hair.

This clipper is supplied with a rechargeable lithium battery and can also be plugged into mains (cable supplied). The Lordson clipper comes with a 1.5 mm cutting head (size 10). You will also have the opportunity to simply change the cutting head to suit your needs.

Lordson clippers are ergonomic and all CE certified. Equipped with an air filter for better ventilation during the clipping and a hook to be able to be hung up when not in use. The cutting heads are compatible with professional hair clippers: Andis, Moser, Oster A5 Aesculap Favorita, Heiniger Saphir. The cutting heads are stainless steel, sharp and durable.

ME Medical Clippers

The ME Medical cordless, rechargeable clipper has enhanced features to help with hygiene compliance in pre-operative care. The disposable Universal blade reduces infection rates, save time and reduces costs. It takes less than an hour to charge and offers approximately 60 minutes running time due to its long battery life. The charging station also serves as a base unit with in-built wall bracket.

The cordless clipper can also be used in commercial enterprises, such as tattoo parlours, where hair requires removing prior to the tattoo process.

Benefits for Patients

- Minimises risk of skin irritations, micro injuries and infections as it is gentle on the skin
- Noise generated when in use is reduced
- Dressings adhere better to skin due to the smooth shave achieved
- Hair from hard-to-reach areas is easier to remove due to the 45 degree rotating head
- The blade glides on the skin with the help of vertical guide strips

Benefits for Operators

- Safe removal of animal hair
- Can be used for wet and dry shaving
- Shaving performance saves time and enables efficient operation preparation
- Close removal of hair offers clean incision site, making it easier for dressing to adhere to the skin
- Easy to clean, rinse and disinfect

Other Features

- Long battery life of approximately 60 minutes
- Battery status indicator
- Overcharge protection
- Rotatable shaving head with quick release for disposal
- ME QuickCharge® means charging time is less than an hour

Clipper Blades

It is simple to remove the 35mm disposable blade head from the cordless clipper. Simply remove and replace with a click!
