

Vet1 Tick Essentials

Vetpump Pro VP-50 Infusion Pump

Vetpump Pro VP-50 Infusion Pump works both on battery and mains power supply, which is perfectly adapted for veterinary use. Our multi-function infusion pumps bring precision, ease of use, safety and versatility for your day-to-day fluid therapy requirements. **2-year warranty**

Vetflow Pro SP-50 IV Syringe Pump

Vetflow Pro SP-50 Syringe Pump works both on battery and mains power supply, which is perfectly adapted for veterinary use. Our multi-function syringe pump brings precision, ease of use, safety and versatility for your day-to-day fluid therapy requirements. **2-Year Warranty**

Vet1 WM20 Infusion Fluid Warmer

The Vet1 WM20 Vet Infusion Warmer is a 'dry heater', which means the fluid does not directly contact the heating element. It transfers heat from heat exchanger through the infusion tube to the IV fluid to achieve continuous heating.

The user can adjust the setting temperature in the range of 30 °C ~50°C according to actual needs, and the heater can automatically work to the preset temperature with the built-in intelligent chip and maintain the constant temperature state after reaching the target temperature

Vet1 IV Infusion Pump Set - 200cm 10 Drops/mL infusion set with latex free Y clip Rotating Male luer lock/slip. Designed for use with Vet1 Vetpump Pro VP-50 Infusion Pump. (Compatible for use with, Heska®, Niki® VetPro® IV Pumps)

VET1 Microbore T-Port luer slip - latex free injection port and slide clamp. Length 12cm. Designed to lay as flat as possible for patient comfort while reducing the risk of bite removal.

Vet1 Infusion Set \$1.48 each (100/Box)
Vet1 Microbore T-Port \$2.85 each (50/Box)

IV Bag Warming Cabinet – Large

The Vet1 bag warming cabinet holds up to fifteen 1 litre fluid bags or equivalent. Accurate temperature control via electronic thermostat, and LCD thermometer. Overtemperature protection to ensure bags cannot overheat.

External Dimensions: H – 500mm, W – 560mm, D – 325mm
Internal Dimensions: H – 400mm, W – 500mm, D – 280mm

IV Bag Warming Cabinet – Small

The Vet1 bag warming cabinet holds eight 1 litre fluid bags or equivalent. Warm air circulates throughout the cabinet, accurately controlled by an electronic thermostat to 38 deg C +/- 1 deg C. Internal temperature displayed on LED display. Over-temperature protection ensures fluids cannot overheat.

External Dimensions: H – 490mm, W – 320mm, D – 250mm
Internal Dimensions: H – 390mm, W – 270mm, D- 195mm

Compact Suction Unit & Mobile Suction Unit

Sterile Suction tubing 6.0mm X 3m

Sterile Suction Tip

Sterile Suction Filter

Vet1 Patient Warming Matt

A simple but effective product that gently warms small mammals on the operating table minimizing loss of body heat and increasing survival rates. The Vet1 Patient Warming Matt is constructed from tough ABS plastic with an anodised aluminium panel bonded to the surface to aid cleaning and sterilisation. A separate digital control module allows the precise temperature of the surface to be selected by the surgeon within the range 10 to 50 degrees C, and operation of the heater is indicated by an amber light.

Size: 350mm x 530mm

Vet1 60V Veterinary Pulse Oximeter

The Vet1 60V Veterinary Pulse Oximeter is an affordable monitor for spot checking, continuous monitoring or recording of functional oxygen saturation of arterial SpO₂, pulse rate and pulse strength.

The unit can be used on a variety of animals like horses, dogs and cats, etc. with adjustable alarm limits as well as visible and audible alarm signals.

Features:

- 3.5" Large size color touch screen TFT LCD, white LED backlight
- Veterinary Specific Software with feline, canine and equine modes.
- Supplied with new Nellcor Oximax Compatible Tip Clip Sensor
- Turn off automatically for power saving.
- Uses Lithium battery.
- Three measurement modes: spot-check, monitoring and record.
- Continuous storage of data for 999 patient data in 120 hours.
- Data can be stored on a computer and managed, analyzed and printed by using the ODMS system.
- Silent sleep monitoring, with data storage and automatic power-saving features for patients with 24 hours uninterrupted care.
- Expanded heart rate values and veterinary specific SpO₂ sensors to accommodate a variety of species.

Masimo Rad 5V

Featuring Masimo SET® Measure-through Motion and Low Perfusion Pulse Oximetry. Supplied with Rubber Boot & Veterinary Sensor & Cable

Vet1 Tick Essentials

Lordson Professional Clipper - 2 Speed with Battery

The Lordson Professional 2 Speed on Battery Clipper is rugged and reliable. Its motor drives the cutting head directly, which gives the maximum power during clipping. Thanks to its 2 speeds, you will be able to work as well on a normal hair and dense or tangled hair.

This clipper is supplied with a rechargeable lithium battery and can also be plugged into mains (cable supplied).

The Lordson clipper comes with a 1.5 mm cutting head (size 10). You will also have the opportunity to simply change the cutting head to suit your needs.

Vet1 Professional Animal Clippers with LCD Screen

Ceramic moveable blade combined with Titanium coated fixed blade, 4 Steps cutting length adjustment, 3 Hour quick charge with 180mins of use, LCD Display which shows time remaining in mins and charging status. Li-Ion Polymer battery

ME Medical Rechargeable Surgical Clippers with charging station

The ME Medical cordless, rechargeable clipper has enhanced features to help with hygiene compliance in pre-operative care. The disposable Universal blade reduces infection rates, save time and reduces costs. It takes less than an hour to charge and offers approximately 60 minutes running time due to its long battery life. The charging station also serves as a base unit with in-built wall bracket.

CLED 32 Examination Light

LED from OSRAM. Optic Lens from French FRESNEL.

Excellent optic performance. Energy saving and compact designed for easy cleaning. Multi-installation options: Trolley-type, Wall-mounted, Ceiling-mounted.

HUGO LED EXAM LIGHTS

The ceiling mounted offers 360° movement thanks to the innovative arm design. The standard ceiling mounts are provided to suit ceilings up to 3.1m although bespoke models are available where required.
