Vet1 60V Handheld Pulse Oximeter

The Vet1 60V Veterinary Pulse Oximeter is an affordable monitor for spot checking, continuous monitoring or recording of functional oxygen saturation of arterial SpO2, pulse rate and pulse strength.

The unit can be used on a variety of animals like horses, dogs and cats, etc. with adjustable alarm limits as well as visible and audible alarm signals.

Features

- 3.5'Large size color touch screen TFT LCD, white LED backlight
- Turn off automatically for power saving.
- Uses Lithium battery.
- Three measurement modes: spot-check, monitoring and record.
- Continuous storage of data for 999 patient data in 120 hours.
- Data can be stored on a computer and managed, analyzed and printed by using the ODMS system.
- Silent sleep monitoring, with data storage and automatic power-saving features for patients with 24 hours uninterrupted care.
- Expanded heart rate values and veterinary specific SpO2 sensors to accommodate a variety of species.
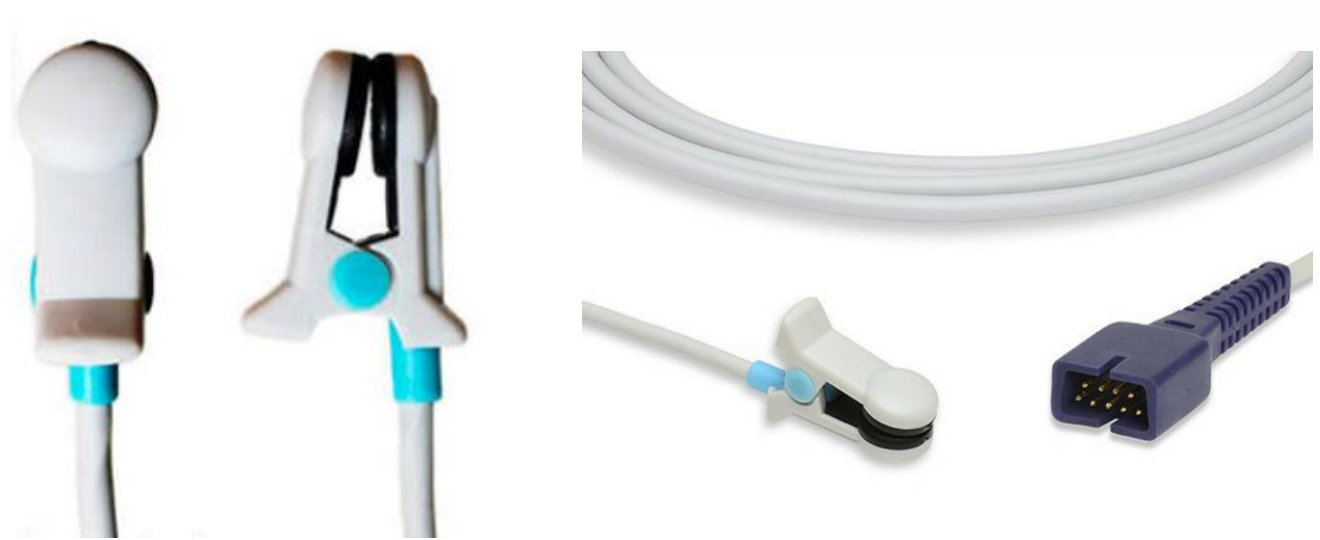

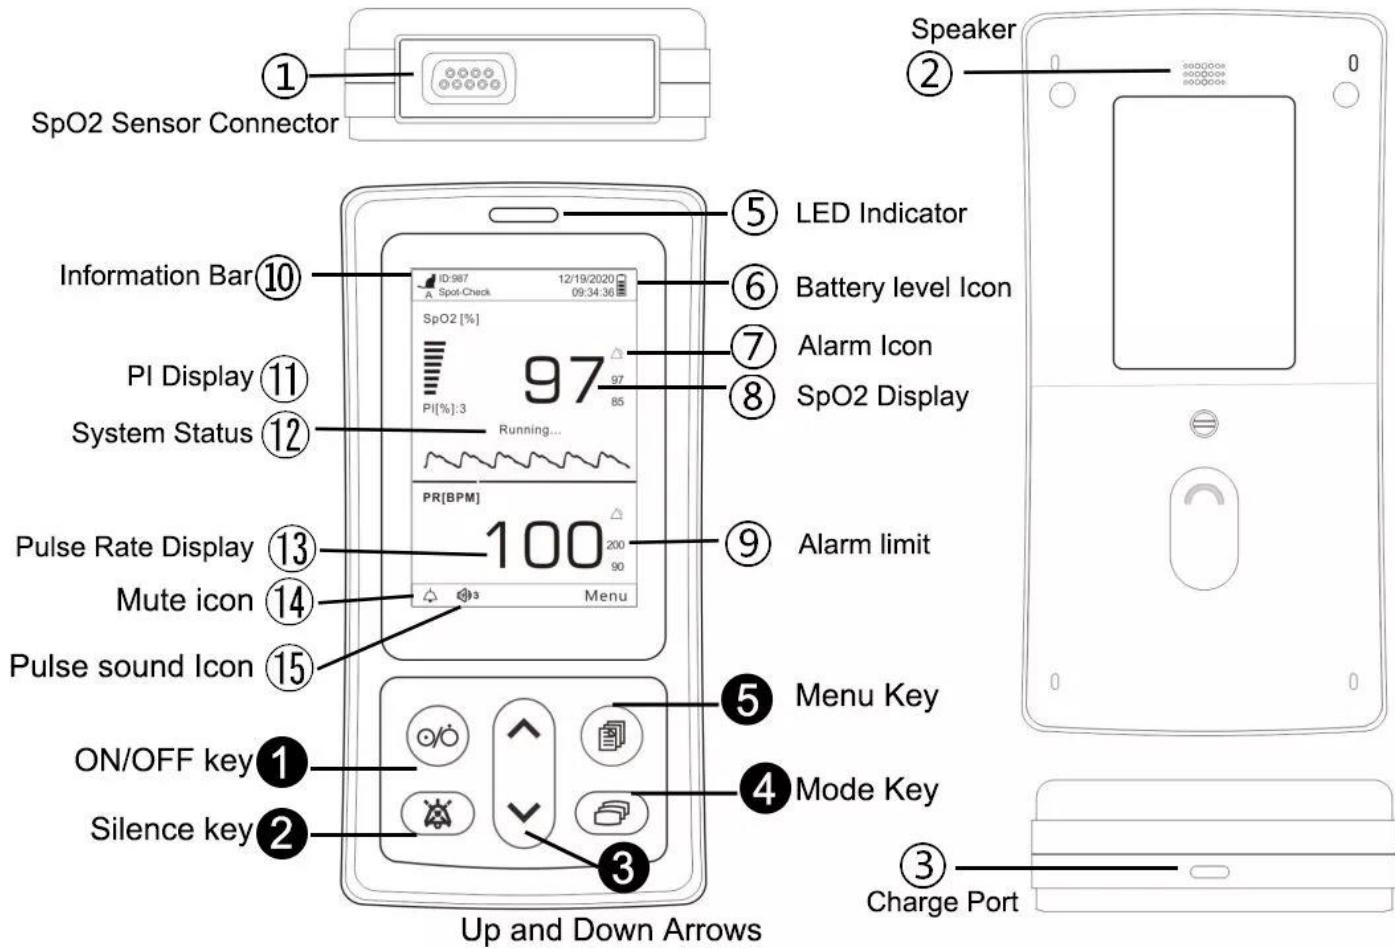

Specifications

SPO2 Measurement Range	1-100%
Accuracy	70-100% (+/-2%)
Display Wave Speed	10mm/Sec
Pulse Rate	30bpm-400bpm
Alarms	Audible & Visual
Priorities	Low, Medium, High
Battery	Lithium Battery (Approx 15 hours usage)
Configuration	Main Unit, Veterinary SpO2 sensor, Charging base, Lithium Battery
Sensor	Veterinary Tip Clip Sensor for secure
Optional Configuration	Data Analysis Software(ODMS), Touch Screen
Memory	Saves a total of 120hours of data events; saves date and time, alarm conditions, measurements
